**Display process system Model VP-1000/5000 series : Notification of production stop**

We would like to inform that production of the display process system model VP-1000/5000 series (by VISCO) will be discontinued.

Please refer the following details, and we thank you for your understanding on this issue.

**Contents**

**1 . Applicable model;**

- VP1000 (include the YVC series)
- VP5000
- TVS-50R
- FX-

**2 . Order stop date;**

December 11<sup>th</sup>, 2013

This is the last date to receive the order acceptance (Purchase Order).

**3 . Service ending date;**

December 16<sup>th</sup>, 2016

**\*Note with caution**

There is possibility that main parts will not be obtained in the maintenance service period

**4 . Replacement model;**

There is no model for replacement but following option is available.

The option with our recommendation is to replace with ACA system

That main-unit, camera, illumination, I/F cable, software need to be changed.

Please contact with our affiliates or agent in your region for more details.
